

SHULER'S MEMORIAL CHAPEL SPONSORS NOVEMBER 6, 2010 HEALTH FAIR

Early detection saves lives. But so many people forgo doctors' visits and examinations for reasons ranging from lack of transportation to fear of knowing.

To help combat the obstacles standing between residents and good health, the Delray Roots Organization is bringing the healthcare to the people! On November 6, 2010 at Pompey Park Community Center, the public will be invited to a comprehensive, free **Health Fair**, as part of this year's Roots Festival.

Sponsored by Shuler's Memorial Chapel, the Health Fair, which is scheduled from 7:30 a.m.-2:30 p.m., will feature the following services:

- Screenings for diabetes, high cholesterol and elevated blood pressure
- General evaluations by vision specialists, dental and oral health specialists, pediatricians and many other healthcare and wellness providers
- Information booths and presentations on fitness and exercise services; managing chronic conditions, such as diabetes and congestive heart disease; stress and weight management; natural health remedies; local health resources; and more!

For 32 years, the Delray Roots Organization has been proud to be a community resource for culture, art, education, health and recreation in Delray Beach and South Florida. Since the festival's inception, the organization has expanded to include several facets of what makes Delray Beach such a wonderful place to work and live!
